SELECTED GLOSSARY OF CENSUS TERMS AND CONCEPTS

SAMPLE DATA

The data tabulations in this report are from the 1980 Census of Population and Housing, Summary Tape File 3B (STF3B). STF3B contains sample data, data obtained from a 20% sample of the population through the long-form questionnaire. The sample data are weighted to estimate characteristics for the total, 100%, population and housing counts. In some cases, because of sample weighting variations, the tabulations from sample data will differ slightly from the 100% count tabulations.

SUPPRESSION

In order to maintain the confidentiality promised respondents, the Census Bureau withholds or "suppresses" tabulations of characteristics of very small groups of people or housing units. A double asterisk (**) appears in data cells that have been suppressed.

For a comprehensive discussion of census concepts and a complete glossary of terms, consult User's Guide, 1980 Census of Population and Housing, U.S. Bureau of the Census, PHC80-R1. This publication is available in public libraries.

DISABILITY

Disability is defined as the presence of physical, mental or other health condition which lasted 6 months or more and which limits the kind or prevents a particular type of activity. Persons with a WORK DISABILITY are those who have a health condition which limits the kind or amount of work they can do or prevents them from working. Persons with a PUBLIC TRANSPORTATION DISABILITY are those who have a health condition which makes it difficult or impossible to use buses, trains, subways, or other forms of public transportation.

GROUP QUARTERS

Persons in GROUP QUARTERS include those in living arrangements, such as nursing homes and boarding houses, which are not households. Persons in group quarters are subdivided into INMATES OF INSTITUTIONS (i.e., homes for the aged, mental hospitals, correctional institutions, etc.) and OTHER GROUP QUARTERS (i.e., boarding houses, college dormitories, communes, military barracks, etc.).

HOUSEHOLD, HOUSEHOLD RELATIONSHIP, HOUSEHOLD TYPE

A HOUSEHOLD is a person or persons living in a housing unit. In 100% tabulations the number of households is the same as the number of occupied housing units. In sample tabulations (like those from STF3B) occupied housing units and households may differ slightly because of differences in weighting the sample data. HOUSEHOLD RELATIONSHIP refers to the relationship among the persons living in the household and is defined in terms of the householder. The HOUSEHOLDER is the person who is listed first on the Census questionnaire and one in whose name the housing unit is owned or rented. Householders can be either male or female. All other persons in the household are defined in terms of their relationship to the householder; these include spouse, child, or other relative or nonrelative. Households are classified by type according to the presence of relatives to the householder. A FAMILY household is one which includes a family (two or more related individuals); a NONFAMILY household consists of a person living alone or with one or more unrelated individuals.

HOUSING UNITS: YEAR-ROUND/TENURE/STRUCTURE TYPE

A HOUSING UNIT is a house, apartment, mobile home or trailer, group of rooms, or single room occupied as a separate living quarter, or, if vacant, intended for occupancy as a separate living quarter.

Separate living quarters are those in which the occupants live and eat separately from any other person in the building and which have direct access from the outside of the building or through a common hall. YEAR-ROUND housing units include all occupied units plus vacant units intended for year-round use. Vacant units held for seasonal use or migratory labor are excluded. TENURE is the classification of housing units into OWNER-OCCUPANCY and RENTER-OCCUPANCY. A housing unit is OWNER-OCCUPIED if the owner or co-owner lives in the unit whether the unit is mortgaged or fully paid for. All occupied units not owner-occupied are RENTER-OCCUPIED, regardless of whether cash rent is paid. STRUCTURE TYPE reflects the number of housing units in the structure. The categories and definitions follow. ONE-UNIT, DETACHED: A 1-unit structure detached from any other house, i.e., with open space on all four sides. Such structures are considered detached even if they have an adjoining shed or garage. A one-family house containing a business is considered detached as long as the building has open space on all four sides. Mobile homes or trailers to which one or more permanent rooms have been added or built on are also included. ONE-UNIT, ATTACHED: A 1-unit structure which has one or more walls extending from ground to roof separating it from adjoining structures. In row houses (sometimes called townhouses), double houses, or houses attached to non-residential structures, each house is a separate attached structure if the dividing or common wall goes from ground to roof. The categories TWO, THREE and FOUR, and FIVE OR MORE UNITS reflect structures containg two or more housing units. MOBILE HOME or TRAILER: Both occupied and vacant mobile homes to which no permanent rooms have been added. If only a porch or shed has been added, the unit is counted in this category. Mobile homes or trailers used only for business purposes or for extra sleeping space, and mobile homes or trailers on a dealer's lot, at the factory, or in storage are not counted in the housing inventory.

INCOME IN 1979

INCOME is the total money income received from all sources in calendar 1979 and is ascertained on a sample basis for all persons 15 years old and over. MEDIAN INCOME is a measure of income distribution and is the income level at which half the incomes fall above and half fall below.

LABOR FORCE

Labor force status is determined for persons 16 years old and over in accordance with work activity during the last week of March 1980. Members of the labor force include those in the Armed Forces and those in the civilian labor force. The CIVILIAN LABOR FORCE is further classified into EMPLOYED and UNEMPLOYED. EMPLOYED persons include those who worked as paid employees, or in their own business or profession, or on their own farm, or who worked 15 or more hours as an unpaid worker on a family farm or in a family business; or those who had a job but did not work due to illness, vacation, strike, etc. UNEMPLOYED persons include those who did not work and had no job but who looked for work and were available to accept a job. Those who were NOT IN LABOR FORCE include all persons not otherwise classified such as students, retirees, housewives, and "discouraged workers."

LANGUAGE SPOKEN AT HOME

Persons aged five and over are classified according to the language spoken at home and ability to speak English. "Only English spoken at home" indicates that no other language is spoken at home. "Another language spoken at home" includes persons who speak another language at home even if English is spoken more frequently than the other language. Those who speak another language at home are subdivided into those who speak English well and those who cannot speak English well.

POVERTY STATUS IN 1979

Families and unrelated individuals are classified as above or below poverty by comparing their total 1979 income to an income cutoff or "poverty threshold." The income cutoffs vary by family size, number of children, and age of householder or unrelated individual. For a one-person household the poverty threshold was $3,774 if the householder was under 65 years of age and $3,479 for those over 65. A four-person household with two children under 18 years of age had a poverty threshold of $7,356.

RACE AND ETHNICITY

The number of persons in each race category reflects the self-identification of respondents. Presented here are the 4 major racial groups: 1) WHITE, 2) BLACK, 3) AMERICAN INDIAN, ESKIMO and ALEUT, and 4) ASIAN and PACIFIC ISLANDER, with those not classifiying themselves in any of these categories included in "OTHER." In addition to the race question, the 1980 Census requested respondents to identify themselves as "of SPANISH ORIGIN" or "NOT of SPANISH ORIGIN." This ethnic question yields the information on Spanish Origin population. It is important to note that Spanish Origin is NOT a racial category; Spanish Origin persons may be of any race.

URBAN/RURAL AND URBANIZED

URBAN and RURAL are type of area concepts rather than specific areas outlined on maps. According to Census Bureau definition, the URBAN population consists of all persons living in URBANIZED AREAS (UAs) and in places of 2,500 or more inhabitants outside UAs. An URBANIZED AREA has a population concentration of at least 50,000 inhabitants, generally consisting of a central city and the surrounding, closely settled, contiguous territory (suburbs). Usually, the density level is at least 1,000 persons per square mile.

SELECTED GLOSSARY OF CENSUS TERMS AND CONCEPTS

SAMPLE DATA

The data tabulations in this report are from the 1980 Census of Population and Housing, Summary Tape File 3B (STF3B). STF3B contains sample data, data obtained from a 20% sample of the population through the long-form questionnaire. The sample data are weighted to estimate characteristics for the total, 100%, population and housing counts. In some cases, because of sample weighting variations, the tabulations from sample data will differ slightly from the 100% count tabulations.

SUPPRESSION

In order to maintain the confidentiality promised respondents, the Census Bureau withholds or "suppresses" tabulations of characteristics of very small groups of people or housing units. A double asterisk (**) appears in data cells that have been suppressed.

For a comprehensive discussion of census concepts and a complete glossary of terms, consult User's Guide, 1980 Census of Population and Housing, U.S. Bureau of the Census, PHC80-R1. This publication is available in public libraries.

DISABILITY

Disability is defined as the presence of physical, mental or other health condition which lasted 6 months or more and which limits the kind or prevents a particular type of activity. Persons with a WORK DISABILITY are those who have a health condition which limits the kind or amount of work they can do or prevents them from working. Persons with a PUBLIC TRANSPORTATION DISABILITY are those who have a health condition which makes it difficult or impossible to use buses, trains, subways, or other forms of public transportation.

GROUP QUARTERS

Persons in GROUP QUARTERS include those in living arrangements, such as nursing homes and boarding houses, which are not households. Persons in group quarters are subdivided into INMATES OF INSTITUTIONS (i.e., homes for the aged, mental hospitals, correctional institutions, etc.) and OTHER GROUP QUARTERS (i.e., boarding houses, college dormitories, communes, military barracks, etc.).

HOUSEHOLD, HOUSEHOLD RELATIONSHIP, HOUSEHOLD TYPE

A HOUSEHOLD is a person or persons living in a housing unit. In 100% tabulations the number of households is the same as the number of occupied housing units. In sample tabulations (like those from STF3B) occupied housing units and households may differ slightly because of differences in weighting the sample data. HOUSEHOLD RELATIONSHIP refers to the relationship among the persons living in the household and is defined in terms of the householder. The HOUSEHOLDER is the person who is listed first on the Census questionnaire and one in whose name the housing unit is owned or rented. Householders can be either male or female. All other persons in the household are defined in terms of their relationship to the householder; these include spouse, child, or other relative or nonrelative. Households are classified by type according to the presence of relatives to the householder. A FAMILY household is one which includes a family (two or more related individuals); a NONFAMILY household consists of a person living alone or with one or more unrelated individuals.

HOUSING UNITS: YEAR-ROUND/TENURE/STRUCTURE TYPE

A HOUSING UNIT is a house, apartment, mobile home or trailer, group of rooms, or single room occupied as a separate living quarter, or, if vacant, intended for occupancy as a separate living quarter.

Separate living quarters are those in which the occupants live and eat separately from any other person in the building and which have direct access from the outside of the building or through a common hall. YEAR-ROUND housing units include all occupied units plus vacant units intended for year-round use. Vacant units held for seasonal use or migratory labor are excluded. TENURE is the classification of housing units into OWNER-OCCUPANCY and RENTER-OCCUPANCY. A housing unit is OWNER-OCCUPIED if the owner or co-owner lives in the unit whether the unit is mortgaged or fully paid for. All occupied units not owner-occupied are RENTER-OCCUPIED, regardless of whether cash rent is paid. STRUCTURE TYPE reflects the number of housing units in the structure. The categories and definitions follow. ONE-UNIT, DETACHED: A 1-unit structure detached from any other house, i.e., with open space on all four sides. Such structures are considered detached even if they have an adjoining shed or garage. A one-family house containing a business is considered detached as long as the building has open space on all four sides. Mobile homes or trailers to which one or more permanent rooms have been added or built on are also included. ONE-UNIT, ATTACHED: A 1-unit structure which has one or more walls extending from ground to roof separating it from adjoining structures. In row houses (sometimes called townhouses), double houses, or houses attached to non-residential structures, each house is a separate attached structure if the dividing or common wall goes from ground to roof. The categories TWO, THREE and FOUR, and FIVE OR MORE UNITS reflect structures containg two or more housing units. MOBILE HOME or TRAILER: Both occupied and vacant mobile homes to which no permanent rooms have been added. If only a porch or shed has been added, the unit is counted in this category. Mobile homes or trailers used only for business purposes or for extra sleeping space, and mobile homes or trailers on a dealer's lot, at the factory, or in storage are not counted in the housing inventory.

INCOME IN 1979

INCOME is the total money income received from all sources in calendar 1979 and is ascertained on a sample basis for all persons 15 years old and over. MEDIAN INCOME is a measure of income distribution and is the income level at which half the incomes fall above and half fall below.

LABOR FORCE

Labor force status is determined for persons 16 years old and over in accordance with work activity during the last week of March 1980. Members of the labor force include those in the Armed Forces and those in the civilian labor force. The CIVILIAN LABOR FORCE is further classified into EMPLOYED and UNEMPLOYED. EMPLOYED persons include those who worked as paid employees, or in their own business or profession, or on their own farm, or who worked 15 or more hours as an unpaid worker on a family farm or in a family business; or those who had a job but did not work due to illness, vacation, strike, etc. UNEMPLOYED persons include those who did not work and had no job but who looked for work and were available to accept a job. Those who were NOT IN LABOR FORCE include all persons not otherwise classified such as students, retirees, housewives, and "discouraged workers."

LANGUAGE SPOKEN AT HOME

Persons aged five and over are classified according to the language spoken at home and ability to speak English. "Only English spoken at home" indicates that no other language is spoken at home. "Another language spoken at home" includes persons who speak another language at home even if English is spoken more frequently than the other language. Those who speak another language at home are subdivided into those who speak English well and those who cannot speak English well.

POVERTY STATUS IN 1979

Families and unrelated individuals are classified as above or below poverty by comparing their total 1979 income to an income cutoff or "poverty threshold." The income cutoffs vary by family size, number of children, and age of householder or unrelated individual. For a one-person household the poverty threshold was $3,774 if the householder was under 65 years of age and $3,479 for those over 65. A four-person household with two children under 18 years of age had a poverty threshold of $7,356.

RACE AND ETHNICITY

The number of persons in each race category reflects the self-identification of respondents. Presented here are the 4 major racial groups: 1) WHITE, 2) BLACK, 3) AMERICAN INDIAN, ESKIMO and ALEUT, and 4) ASIAN and PACIFIC ISLANDER, with those not classifiying themselves in any of these categories included in "OTHER." In addition to the race question, the 1980 Census requested respondents to identify themselves as "of SPANISH ORIGIN" or "NOT of SPANISH ORIGIN." This ethnic question yields the information on Spanish Origin population. It is important to note that Spanish Origin is NOT a racial category; Spanish Origin persons may be of any race.

URBAN/RURAL AND URBANIZED

URBAN and RURAL are type of area concepts rather than specific areas outlined on maps. According to Census Bureau definition, the URBAN population consists of all persons living in URBANIZED AREAS (UAs) and in places of 2,500 or more inhabitants outside UAs. An URBANIZED AREA has a population concentration of at least 50,000 inhabitants, generally consisting of a central city and the surrounding, closely settled, contiguous territory (suburbs). Usually, the density level is at least 1,000 persons per square mile.
